OOAD Project

Life Span: Till end of semester – 5th May 2014

SE Project

Extra Work:

- From **May 5 till {June 30th or July 10th }**
- About **~60 days**
- **5hrs/day/student**
- **Work Load : 5 * 60 = 300 hrs**

Expected Work for 300 hrs/Student:

- Become competent in building S/w System **using REST Services**
- Host all 4 applications as J2EE applications **using Google App Engine.**
- Learn **to use other REST Services (from Twitter, Google, FB, Amazon etc.)** in your application.
- **Expose REST Services of your application**, which can be used by other application.
- **Each group should use REST Services exposed by other 3 groups** (Total 4 SE groups – mentioned above).

Overall, build applications with (JSP,Struts.Java) as part of OOAD Project and then **using REST Services , Google App Engine to host J2EE Server.**

SE Documents:

- Enter **Time Sheet daily** and correctly.
- **Version Control** – use GitHub
- Have Weekly Status Report meeting
 - **EVERY WEEK – Saturday, 11. 30 AM**
 - **Write Minutes Of Meeting (MoM)**
 - **Mail it to Sir**
- Team of 9 Students

Title – Post Mid Term Weekly Status Meeting – 01 :

- Each Meeting – **Max 1 hour**
- Discuss
 - What was done in last week?
 - Pending Work – Who will do it? Expected completion date?
 - Work for next week – Who will do what?
 - Problems, Suggestions.

IN WSR DO NOT DISUSS “How to do something??”
